

Organizational/Personal Goals of Your Internship

Personal Goals in the Internship is a strategy to desire to gain work experience. It guides you along the way as you start your internship to make sure you get what you really want to achieve so that you could be very successful. You need to make a choice on your objectives independently or with your supervisor.

The Job Position of Fall 2021 Visual and Performing Arts Internship is a VPA Media Internship which concentrates on the creative community on the Visual and Performing Arts (VPA) Department at Worcester State University to create a skill in the Communication Field such as Photography, Video Editing, and Graphic Design. VPA media internship would help students to explore in promoting an interdisciplinary art: theatre, music, visual arts to observe their talent. Their goal is to find three internships to participate in the VPA department for the Fall 2021 semester.

The VPA Media Internship is a three-credit course which students engage to create a communication portfolio, create a short video to gain the VPA promotion for special occasion and education experience, publishing photographs and videos on social media, reporting news stories on the *Artful Lancer* and other publications, designing graphics for the VPA events, and photograph and film to develop and represent the visual of the VPA. Students who participate in the VPA Media Internship must complete the coursework in several areas that suits their interests. They need to be available to work up to eight hours and be a very motivated student.

My personal goal is to establish myself in the Visual and Performing Arts internship as a news writer. I wanted to do my research before I write a report. I wanted to ask the VPA Faculty some questions on an email instead of interviewing them in-person. I want to use this

opportunity as a learning experience to understand the journalism world in order to become a writer. This internship will work on confident for other internships in the future.
